

Inside EdSafe Training

The issue addressed:

Manual, fragmented or generic compliance training and processes can make staff safety training difficult to manage, or disconnected from the actual risks schools face, or both.

Each EdSafe Training is designed specifically for member schools, giving:

- + School-selected school-context safety training content from ESN, the school and others
- + User-friendly training delivery and secure records management
- + Ongoing personalised service, support and training currency maintenance

Why schools use EdSafe Training

- ✓ Custom-configured to suit school operational and staff safety needs
- ✓ School-specific safety and wellbeing training content with flexible delivery options
- ✓ Secure training records and certificate management
- ✓ Easy deployment through school intranet links, portals or internal systems
- ✓ Hosted and serviced by ESN, reducing internal administration and technical workload

How EdSafe Training and personalised service work

- Member selects training content from ESN, internal school and external sources
- ESN configures and provides the member's dedicated EdSafe Training
- School staff access EdSafe Training through the member's chosen internal access point
- Training records are managed by the school through the EdSafe Training Admin Centre
- Member retains direction and control over training resources and records
- ESN maintains the EdSafe Training, hosting, content currency and support

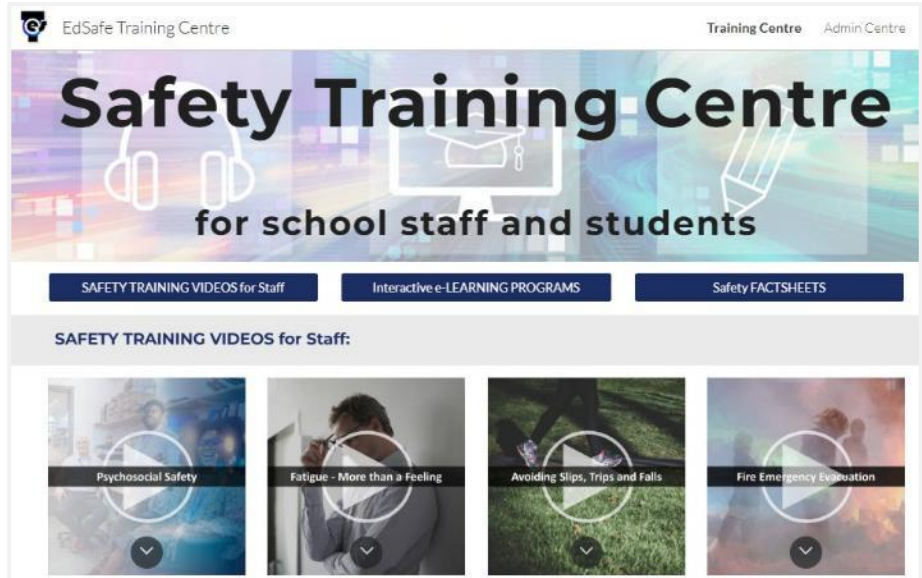

EdSafe Training:

- ✓ Offers school-relevant, verifiable safety training for staff at all levels
- ✓ Saves schools development effort and cost, and reduces training administration load
- ✓ Is easily accessible online through existing school systems (single sign on)
