

ESN SafetyHub Update Centre

Helping leaders stay informed, prepared and aware

Why? Because the right safety knowledge underpins effective safety action.

- ✓ **Officers need up-to-date safety knowledge** to meet due diligence requirements
- ✓ **Leaders need relevant information** to make informed safety decisions
- ✓ **Staff need to know about issues** likely to impact their own and other people's safety
- ✓ **Students need the staff caring for them to know** how best to protect them

Support leadership safety awareness and due diligence

with latest and ongoing school safety news and alerts from Regulators and peak bodies

with notifications of relevant regulatory changes newly in force and pending

by e-News safety update bulletins delivered to inbox directly or forwarded internally

Help staff understand the real reasons safety matters

with news of incidents and legal cases in other schools, enabling learning and action to prevent similar harms

with hazard-specific school prosecution case sets showing the severe results of failing to take reasonable care

with current school safety alerts and news enabling awareness and prevention of harms to people

Support ongoing safety and risk management decision-making

with current knowledge needed to better protect students, colleagues and school community

with knowledge of emerging risks and issues so protective plans and actions can be taken

with access to new safety and risk management tools available from Regulators, from ESN or more broadly
