

# Why EdSafe Training (Import)?

## **The issue addressed:**

Training content from generic compliance training libraries isn't always complete or specific to schools, and the timing of its availability may not be controllable by the school

## ***EdSafe Training (Import):***

- + Provides school-specific safety training content from the extensive ESN training suite
- + Enables training import and delivery through training systems or LMS already operating
- + Allows control by the school over ESN content availability and delivery timing
- + Is supported by personalised ESN service and training currency maintenance

## **Why schools choose *EdSafe Training (Import)***

- ✓ Its safety and wellbeing training is school-specific and focused on risks in schools
- ✓ No training system or LMS change or duplication is required
- ✓ Full control is the school's as to what ESN training to run, for whom, and when
- ✓ Personalised ESN service supports ongoing content selection and currency
- ✓ No training development effort or per-user licensing costs are required of the school

## **How *EdSafe Training (Import)* and service work**

- School selects school safety training content from the ESN content suite
- ESN packages and provides the selected training content
- School imports or includes the content in their training platform, system or LMS
- ESN manages training content currency and update notifications
- School decides if, and when to import and implement new or updated ESN content
- One annual subscription fully covers ESN content access, packaging and maintenance

## ***EdSafe Training (Import):***

- ✓ Fits within, supports and enhances existing school training platforms and LMS
- ✓ Equips safer work and learning in the face of actual hazards and risks in schools

# EdSafe Training (Import) in action

## Determine and control the EdSafe Training content to import and run:

- ✓ From the full ESN safety training suite
- ✓ Selected to suit school plans and staff safety and wellbeing needs
- ✓ Initially, and continuing as school training plans and needs develop
- ✓ Content informed by schools; built for schools; improved by school feedback

## Choose from interactive e-Learning programs:

### Equip staff to work safely

e.g. Induction, Manual Tasks, Chemicals, Stress, Fire

### Equip leaders to manage safety

e.g. Psychosocial, Consultation, Risk, Due Diligence

### Equip students to learn safely

e.g. Curriculum Risk, Concussion

## Select from short training videos:

### Guide staff to work safely

e.g. Psychosocial; Slips, Trips, Falls; Electrical; Ergonomics

### Guide teachers to supervise safety

e.g. Fire Evacuation, Effective Risk Assessments

### Guide students to respond safely

e.g. Vaping (secondary), Discarded Syringes (primary)

## Draw from Safety Snapshot factsheets:

### Help staff to avoid harm from hazards

e.g. Fatigue, Microbes, Violence, Falls, UV, Plant etc

### Help teachers to prevent harm from hazards

e.g. Digital, Allergies, Bullying, Concussion etc

### Help students to learn safely around hazards

e.g. Sports, Woodwork, Science, Outdoor Ed etc
